turn on

Download the QR code

Share WeChat

Step10: Copy this link

[Make a QR code poster](#)

[Custom source >>](#)

Questionnaire links can be customized according to different groups of people. For example, teachers and students can set up two links to send out answers separately.

[Custom link parameters >>](#)

If you have your own member or employee system, you can directly enter the system parameters in the link, get the user name, track the answer status, and return the answer sheet data.

In addition, you can also use custom link parameters to control the selection and filling of some questions in the questionnaire. You can enter the questionnaire through these links. Some questions can be automatically selected and filled out. It is no longer necessary to fill in the answers manually. [Click here for details](#).

  "classin_authority": false}
```

Step12: Replace the content in this location with the link you just copied

Step11: Create a new TXT document and enter this parameter

13

Step13: The document name requires an "edu" suffix

The screenshot shows a web-based cloud storage interface. At the top, there are tabs for 'Authorized Resources', 'My Drive' (highlighted with an orange box), and 'Library'. Below these are sub-tabs for 'Courseware Bank', 'Task Bank', and 'Question Bank'. The main area displays a file list with columns for 'Filename', 'Size', and 'Date'. Two folders are visible: 'Sent files' (dated 09/26/2019 16:35:35) and 'Received files' (dated 04/14/2020 08:31:51). On the left sidebar, the 'Drive' icon is highlighted with an orange box. At the bottom, a toolbar contains buttons for 'Upload' (highlighted with an orange box), 'Create', 'Copy', 'Move', and 'Delete'. The status bar at the bottom right shows 'Used : 520.18MB' and 'Supported file types'.

Filename	Size	Date
Sent files	-	09/26/2019 16:35:35
Received files	-	04/14/2020 08:31:51

14 Step14:Just upload the edu file to cloud disk

THANKS
